Then this is fed into a command that generates a bar chart with the word length within the brackets. The issue I am having is that I would like to remove the duplicate words from the bar chart. For example: [A]... [C]... [E]... [B]... Should now just show: [A]... [B]... ...no duplicates. The command I am using to create the bar chart is below. `\documentclass{article} \usepackage{tikz} \usepackage{pgfplots} \usepackage{pgfplotstable} \usepackage{filecontents} \tikzset{every picture/.append style={ yshift=-0.1cm, xshift=-0.15cm, scale=0.8 } } \pgfplotstableread{ A B C D E abc bdf eed efe adi abcbbeedfefeeedfaeadi } \datatable \begin{document} \begin{figure} \centering \begin{tabular}{| m{4cm} | m{4cm} | m{4cm} | m{4cm} | } \hline \multicolumn{3}{|l|}{\textbf{Bar Chart d4474df7b8}}`
