Description Make sure you check out my other sets on the products page! You will receive all 39 pages, with a file of each page as a JPG. I wanted to share with you all

what I was working on for the class and finally completed them. I am a big fan of Notre Dame and wanted to include the Irish in my project. I do not hand draw the images but use my computer and software that will help me get my ideas down onto the page. I would create the images and then send them to the class. They then would select a set of

pages from each project from me. I always go through the pages with the class, and they would give me feedback and let me know what they liked and disliked about each set. If I was not getting any feedback from the class, I would do the project again until I received it. The downside of the project is that you have the commitment and I

understand. I would love to hear from the class and if you find time, ask me questions! A video posted to Facebook Sunday showed a drugged and bloody Chris Brown continuing to respond to law enforcement officers in a violent rage and refusing to submit to cuffs even after he was later taken to the ground and held down by four officers. According to

Brown's "disturbing" video,
the "Loyal" singer
purportedly recorded himself
during the Dec. 4 incident in
N.Y.C. as he babbled
incoherently. Brown was
surrounded by police officers
but refused to calm down or
listen
