Although at times it's a chicken and egg scenario, it's more like one that's been going on for a long time. For this review, however, I'd like to give a little emphasis to the mousers. The book you hold in your hands is the latest mousetrap to catch my eye. John Murphy's excellent Paging Neale McGarrigle is a terrific read and very much in the vein of all the best books I've seen about the cat and mouse situation between the US and the IRA. It tells the story of the IRA's Neale McGarrigle and the ingenious (and at times unorthodox) ways he got around the UK authorities so he could communicate with his political masters. A little knowledge of the story is probably required to appreciate this book. But I'll try to provide the few highlights of that story in a little more detail. As an Irish emigrant myself, I'm fairly familiar with the hard time emigrants go through to set up a decent life. The 'send the shits' helps the case for why Irish people are even scurrying to the US to make a living. So it's not the strictest description. But the reality still stands. With all the restrictive laws and Dublin's strict immigration policies, it's hard, time consuming and expensive to get set up in a new country. So during the early part of the 20th century, the Irish revolutionaries realised that the safest way to get the messages to the IRA was to take advantage of the existing migratory patterns and travel all the way to the US. Check out this quote from Paging Neale McGarrigle: "Though

Omar Mukhtar, lion of the desert ; Between two world wars, a struggle for freedom took place in the African desert. This movie is the historically accurate story . Umar al-Mukhtar (Omar Mukhtar), also called Omar Mukhtar, is a high-ranking military commander of the Libyan People's Army and the leader of the anti-colonialist rebellion in Libya. In October and November 1931, Mukhtar led his army to defeat the Italians in a series of battles. The success of these campaigns led to Mukhtar becoming the de facto ruler of Libya and led to the end of Italian colonial control. Mukhtar's raids and his leadership inspired Libyan resistance to the Axis occupiers and eventually led to the French surrender. In February 1934, he was declared by the National Congress as the first president of the new kingdom of Libya. He fought against the Italian colonial rule in Libya by a guerrilla, nationalist movement called the "Libyan resistance" (Tunisia). After the second World War, he led the national uprising in Libya against the British and Italian colonialists. He was captured and executed in December 1931 for his part in a rebellion against the Italians.Stefano Maroso Stefano Mar ba24e880a
