V.11.0 Ultra Multilanguage+serial 2011-06-02. rjaa V.11.0 Ultra Multilanguage+serial 2011-06-02. rjaa A: You can set  
Windows to open all files of type xxxx to CyberLink PowerDVD 11 when you double click them. Go to Settings > System >  
Advanced > Default Programs. Click the button "Set Program Access and Defaults..." and set "open [all types] from (other)  
applications" Click "Apply" Now, all files of type xxxx will be opened in PowerDVD 11 when you double click them. You might  
have to remove the first 0. From your string you posted: v.11.0.2408.53.Multilingual.Incl.REG..ra. It seems that you've used the  
first digit to designate the version. Use the second digit, as you did in the string. v.11.0.2408.53.Multilingual.Incl.REG..ra  
v.11.0.2408.53.Multilingual.Incl.REG..ra. Post-translational modification of mammalian Rho proteins and RhoGEF. The Rho  
GTPases are key signalling molecules that regulate a wide variety of cellular functions, including the assembly and function of  
actin cytoskeletons. Rho GTPases are activated by gu
