Extreme Trucker and does not include the "18 " that is featured in the PC version. The game was also ported to the PlayStation 3 in North America on August 26, 2011. The game would have a special edition with a collectible Steel Crate and Steel Cart. The collectible items could be used to earn Steel Crates that could be traded or sold to other players. Although the Steel Crate is only available for the North American PS3 version, a European PS3 version of the game also exists, where the Steel Crate is also included in the Steel Crate bundle. This Steel Crate bundle is only available in North America. For the European version, this Steel Crate is the same as the Steel Crate in the North American version.
