## Guess Numbers Full Product Key

Guess Numbers is a fast paced game that asks users to guess a number in three attempts. The game randomly generates the numbers you need to guess. This fast paced game is played within 3 minutes, but the application will give you 3 attempts. When you guess the number within the time limit, you'll be rewarded with a red heart icon. When you guess the number but fail, you'll get a blue heart icon. If you guess the number but fail again, you'll get a green heart icon. Once all three hearts disappear, you're out of the game! If you succeed, you'll earn more coins! The more coins you earn, the more hearts you'll unlock for other levels.

- Since 2.4.0: - Fixed loading music glitch - Added option to reset high score - Added option to auto-close the application - Added option to listen to music by using the close button - Added option to change the application icon - Added option to display progress bar - Added option to restart the game automatically - Added option to get high score from this level - Added the ability to display best time in this level - Added option to save score in this level - Added option to disable the high score displaying - Added option to enable high score recording - Added option to enable/disable the application sound - Added option to enable/disable application options - Added option to set time for saving score - Added option to set number of attempts for saving score - Added option to save the game settings - Added option to keep application running after game is over - Added option to quit application when game is over - Added option to open the Settings page - Fixed number displaying bug - Fixed high score not displaying bug - Fixed some minor bugs - Updated English translation - Updated Korean translation - Updated German translation

Show detailed code

Guess Numbers provides you with a simple time killing application that challenges you to guess a number in three tries. While some users can find this tool rather boring, others might be tempted to test their patience and view how many tries they need to figure out the used algorithm.

Guess Numbers Description: Guess Numbers is a fast paced game that asks users to guess a number in three attempts. The game randomly generates the numbers you need to guess. This fast paced game is played within 3 minutes, but the application will give you 3 attempts.
