NcDuGo is a software product that can help you view, create and burn CD or DVD images as your life's savings. Unlike other CD-writing software, the application is very small: just 32K or so, and supports only the RIAA-compliant layer-1 CD format. That also means that it can handle CD images of virtually any size, from 100MB for a traditional single-session CD to 4GB for a DVD. NcDuGo is compliant with ISO-13346 (the CD text CD standard) and ISO-15700 (the DVD text CD standard). It also supports the ID3, APE and BINDA tags in the CD image (if any) and the AU (audio) and VIDEO tags (if any) in the DVD image, as well as the MPC (Master Playable CD) and MSCD (Multi-session CD) tags on the RIAA standard. Some other features: NcDuGo can create images of CD/DVDs, automatically. You don't have to do it manually. Support other languages than English. Support Russian, Spanish, French, German, Dutch, Polish, Hungarian, Arabic, Japanese and Chinese. Support FAT 16, FAT 32, NTFS, VFAT and W95/NT/2000/XP/2003. View or create images of CD/DVDs on Windows 95, 98, 2000, XP, 2003 or Vista. Create a CD image with all the features of your PC, including the language and country. You can use internet explorer, Mozilla Firefox, Opera, Netscape Navigator, or any other browser to access CD/DVD images on the web. You can use word processor, Spreadsheet software, Presentation software, among others, to edit images on the web. You can also burn images to CD/DVD from any location. NcDuGo supports image viewing, creating, editing, burning, converting and converting files. NcDuGo supports 32bit and 64bit applications
