I have a mainstream PC, but the game crashed over and over when I did a mission. I thought it was a problem with my PC, so I thought about changing the settings. It didn't work. After a little research, I came across your blog, and I love how you write. I tried GTA 5 Graphics Tweak 2022 Crack, and I can say, it's worth the money. I tried changing everything from drop-shadow to external shadows, and I could see the graphics changing in the game. It helps me stay more calm when playing the game.
