Wattpad, a popular storytelling and publishing website, has just launched Wattpad Book Creator, a new free tool for writers to post chapters of their completed novel on the site. The software will allow anyone to self-publish chapters of their novel online, without the need for editing and publishing services. In addition to Wattpad Book Creator, the site is launching a new Wattpad Daycare program which will allow users to engage with their own characters and stories without the need to find a group of friends and mentors to discuss them with. Wattpad CEO Scott Cohen says, "As the world's largest community for books and reading, we're building Wattpad around readers and creators. The Wattpad Book Creator and Wattpad Daycare will give everyone in the community the tools they need to get content out there and spread the love of reading." Wattpad wants to encourage users to post and self-publish rather than let them passively read and enjoy the work of others. 2:30 Steinberg Music Production Software 23.0.0.234 Activator Exe and dll Download (november 19 2015) Steinberg Music Production Software 23.0.0.234 Activator Exe and dll Download (november 19 2015) Steinberg Music Production Software 23.0.0.234 Activator Exe and dll Download (november 19 2015) Steinberg Music Production Software 23.0.0.234 Activator Exe and dll Download for windows 7 (vista) user.
