First, we prove convergence of the Eulerian moments of the field in  $L^p$  under various assumptions on the velocity field. Then we consider the case of a compressible Navier-Stokes-Fourier system and prove convergence of moments of the vorticity in  $L^p$  for any  $p \geq 1$ . The obtained results are used to study numerically the stochastic Kuramoto-Sivashinsky equation. Finally, we show how the above results are applicable to the case of the three-dimensional incompressible Navier-Stokes equations.' address: - 'A. K. Arshakian, Departement of Mathematics 4bc0debe42
