No Matches Suite-1402 - 'The Winter of Our Dreams' The background painting of this picture was done by Steve White, who has given a "roof top" to the castle. The big windows were painted by the artist's daughter, Martie. The snow is made up of oil pastels. The story of the paintings of the 'Winter of our Dreams' series is that one year the artist, her husband and daughter had a dream where they saw a beautiful castle perched on a high hill. The picture is not reality, but it was a dream! The painting is about "the

## What's New In?

Display and edit markup in a document-independent view that makes it easy to review and annotate all your content at once. Add and manage your annotations from anywhere with the easy to use UI. (video: 2:20 min.) Design Review in BIM 360: In BIM 360, Design Review is available in the Layers view as a tool to check the consistency of your model against requirements. Create and review 3D geometry at a glance, make changes to settings, and export results to other CAD applications. (video: 1:26 min.) Live View: Get the most out of your screen resolution and orientation using AutoCAD Live View. You can view an entire drawing at native screen resolution, work seamlessly across multiple monitors, and share designs on mobile devices. (video: 1:30 min.) SketchUp for AutoCAD: Use the SketchUp CAD/BIM tool to import your CAD models into a 3D, multi-user space for collaborative review and design. AutoCAD users can then review, annotate, and edit your 3D designs without leaving the AutoCAD user interface, while sharing your

work with other collaborators. (video: 1:30 min.) Simplified Validation Process: Manage and reuse settings, configurable items, and templates to customize your workflows for fast, efficient, and effective work in AutoCAD. A single setting can apply to multiple objects, so you don't need to edit settings again and again. With AutoSave and AutoRedo, you can execute one command multiple times, and the design retains the changes you make after it is closed. (video: 1:26 min.) Advanced 3D Modeling: Create and manage projects in AutoCAD and AutoCAD LT. Support for 3D modeling in both AutoCAD and AutoCAD LT, with integrated file importing and exporting. Create views, surfaces, models, and 3D objects in a 3D CAD workspace. Includes new depth-of-field effects that help you to see both the object and its surroundings in all their 3D detail. (video: 1:30 min.) Share and Explore: Share your designs with the community and create a record of your work with Integrate, a powerful new way to organize your design information. Explore your designs in 3D on the Web and in the cloud
