Download MoneyWiz for Mac Are you tired of switching back and forth between your bank, credit cards, and debt accounts? Do you wish to manage your expenses and income in one place and from one application? Then MoneyWiz for Mac, developed by André Laverne, may be the right solution for you. MoneyWiz for Mac MoneyWiz is a Mac software that serves as an integrated expense and income tracker, financial manager, and wallet. It can track multiple financial accounts and bank cards from one app, and you can convert them to a new format like QBO, CSV, or QIF. You can use the provided template to start a new account, or you can modify it with your own fields. For example, you can set a monthly budget, make a habit to pay off debt on time, and so on. Some options can be accessed from the tab bar at the top of the window, such as the ability to open payment requests. Paying off debts and monitoring your income and expenses Those who take out a loan in order to pay off their credit cards can benefit from the software. MoneyWiz provides several ways to pay off your debts. You can make a batch payment, one at a time, or each transaction individually. You can also view your balance sheet, which will show you how much you need to pay to eliminate the debt. MoneyWiz can generate reports on your income and expenses that can be stored in QIF, CSV, or QBO files, which you can then view later or import to other applications. If you wish, you can even import your QIF file to a spreadsheet application like Google Docs. Functionality There are several functions included in MoneyWiz for Mac. First, you can track multiple accounts and bank cards in one app, and then import your earnings and spending into a new format like QBO, QIF, or CSV. Furthermore, MoneyWiz can filter transactions according to income or spending. Third, it offers an integrated budget. You can create a budget for each month, and each transaction can be related to one of them. This feature, called default spending for each budget, enables you to set a monthly limit to every account or bank card that can be reached with an online payment. You can also set a limit for your paycheck, and each transaction can be related to

Write a review My review Review from Reviews Good app but needs enhancement. - This app is very good and works for converting CSV files. However, with my 100+ bank accounts I would have to be careful about what I select and how it works. If I pick a bank account which is not the correct one, it won't be able to import the data. It would be a good idea to make it more user friendly. Good app but needs enhancement. - This app is very good and works for converting CSV files. Good but a few bugs - This is a really good app. The converter is simple and easy to use, the GUI easy to navigate and it has a very short loading time. The app has only a few minor bugs, some of them are even very minor, like the occasional freeze after the conversion is completed. The conversion process takes way too long for my taste, I still have not found out why. I would like to see the app fix the conversion issues and make it faster.
