```
I understood it using below code but it's giving me a blank screen. private void ParseTheFile(string filePath) { try { StreamReader sr = new StreamReader(filePath, Encoding.UTF8); string line = sr.ReadLine(); string name = line.Substring(line.LastIndexOf(".") + 1); string value = line.Substring(line.LastIndexOf(".") + 1) - 1; string[] content = line.Substring(line.LastIndexOf(".") + 1).Split(';'); string fullName = name.Substring(0, name.Length - 1); string value = value.Substring(0, value.Length - 1); if (line.EndsWith(".ddl")) { // Reading the values from csv string result = string.Empty; foreach (string name in content) {
```
