is an adrenaline-pumping 16-player single-player and co-op arcade first-person shooter, voted "Game of the Year 2001" by Gamespot! According to the plot, after the tragic death of General Shibantsev, the government department of Combat Control was dissolved, and a new chief, Danilov, who was connected with the criminal world and personally participated in the murder of Maxim Astafyev, was appointed in his place in order to start negotiations with the Asian Empire group. Other gaming blogs also confirmed the existence of the game, but added that it could not be called Wildstar's third (albeit self-made) first-person shooter. A new shooter called "War Through" should be released next year. It is not known whether War Thowers will be the only one in essence such a project from the first and whether it could be perceived as a separate shooter.
