Package Contents: Office RDL

Report Designer is an application that can be used to

create stand-alone database reports that can be integrated into any desktop reporting tool or databases such as Microsoft SQL Server Reporting Services, Microsoft SQL Server Analysis Services and any other RDL report-enabled database. Office RDL Report Designer features:

- Produce RDL reports in SQL Server Reporting Services
- Express queries in SQL Server Reporting Services and databases
- Change connections

between databases and database queries
Export data
Create RDL files (RDLC)
Create new or edit existing Reports
Advanced Excel Tools: With the object oriented API's and classes, the functionality of Office RDL Report Designer is broad. The aspose.excel classes are very useful when dealing with large data sets, arrays, and repetitive formats such as recurring data, currency formats, and months lists. Aspose.Report class library

provides an object oriented programming interface that can be integrated with the overall assembly. The `aspose.report.Drawing` class library provides a fully functional and powerful API for drawing shapes, images, and graphs on a cell in an Excel sheet. Office RDL Report Designer is an application that can be used to create stand-alone database reports that can be integrated into any desktop

reporting tool or databases such
as Microsoft SQL 09e8f5149f

Provides you with the powerful Aspose.Words for Reporting Services that offers you the ability to create true DOC, DOCX, RTF and WordprocessingML reports in Microsoft SQL Server 2000/2005/2008 Reporting Services.
