Q: Add a duration using data to an active block using Javascript? I have a chart (barchart) that displays a certain data. The data is dynamically added using an ajax call. I want to be able to call the function, update it, then be able to see the chart update based on the new data and duration. I found a function to update the data, but I am not sure how to do it with adding a duration.

Here's what I've tried so far: \$.ajax({ url:

```
"getUrl('mymodule/loadData');?>", dataType: "json", type: "POST", data: dataString, async: false, success: function(data) { $('#block-hierarchy').show(); } });
```

A: I have updated my code to show all the data for the chart to work with it. This is an example of the 09e8f5149f

A little known connection between two of the most famous youth movements of the 1960s exists with the co-founding of Youth International Party (Yippie) in 1960 by Gregory Karplus and A. J. Muste, with the involvement of others including Abbie Hoffman. Contrary to the brief photo collections that have survived that project, the papers of the Italian "Militia di Salone" produced in 1962 by Gabriele Paleotti covering the US "Yippie tour" are not included in this thesis. Gout for the Unconfident: A Guide to Dating with Gout It's an impressive disease to have. Gout affects about five million Americans and is characterized by a painful joint disorder that is frequently caused by a buildup of uric acid in the body. This substance is usually filtered through the kidneys, but when the kidneys are not working properly (as in gout), this usually results in more uric acid circulating in the blood. The most common sites of this joint pain are in the knees, feet, and ankles, but gout is not without risks. In addition to arthritis, gout can lead to kidney stones, which are hard and usually block the passage of urine from the kidneys to the bladder, and kidney failure. Gout is associated with higher serum uric acid levels in several populations. The risk of gout increases with age and gender, with men being more prone than women. It also increases with obesity, hypertension, and alcohol consumption. However, g
