Kopano Photo Archivist The application is intended to help you convert photos to digital galleries. With just a few clicks, you can organize your photos. Or use it to quickly create photo albums and share them on Facebook or Twitter. Kopano also works with iOS and Android smartphones. So you can manage, copy, move, download, share and upload your photos as you see fit. Kopano comes with a free version, which is limited to 400 pictures, and a paid version that adds album creation, device management and sharing to the free version. External links Category:Multimedia software Category:Windows multimedia software Category:Image organizers Category:2015 softwareUS lawmaker says he will not participate in group photo with North Korean leader, meets with rival delegation in DMZ This article is more than 1 year old This article is more than 1 year old A US congressman has walked away from a planned trip to North Korea, saying he will not participate in a group photo with leader Kim Jong-un. Rep. Adam Kinzinger, who represents an Illinois district on the border with the country, said on Saturday that he was "not comfortable" with the photo op. He said he will instead meet with a rival delegation of former US officials, which has met with North Korea twice in the past two weeks. How US and North Korea's relations might improve Read more The picture in question will feature US and North Korean officials, including president Donald Trump, first lady Melania Trump and Kim Jong-un, with whom Trump recently met in Vietnam. If a photo is being taken, Kinzinger said, "I want to know that it's being taken at the right time so that
