She may be a fairy and a virgin, but she does not live in a fairy tale. She was living on a small mining village in western Romania. She had no real mother, she had to stay at school until she got married. One day she and her friends went to a wedding party. She was the only virgin in the party.

A tall, handsome young man with blue eyes came near her. She liked his smile, and she liked the fact that he knew he was the best looking guy at the party. He asked her if she wanted to dance. She liked dancing, so she accepted his invitation. When he led her to the dance floor, they looked into each other's eyes. Then they kissed each other. She liked his hands touching her and his mouth on hers. She thought to herself, 'why shouldn't I enjoy it? After all, I am a virgin'. She let him lift her dress up and her skirt came down. She was wearing a brassiere and her panties were under her panties. He looked at her. He had never seen such a beautiful virgin before. She looked at him and he asked, 'will you marry me?' She smiled and said, 'yes'. That was how she became his wife. When they got home, they took a bath together. They were very attracted to each other. They made love in the bathtub. When they were finally finished, he got out of the tub and dressed up in his clothes. He asked her to follow him. He took her to his room, where there was a bed. He told her to undress, and she did. When she was naked, he took her in his arms and began to make love to her again. She enjoyed it and she was wondering why he did not use a condom. He said, 'I want to make sure that I am the first one. I want to enjoy my marriage.' She was still a virgin, so she did not know the effects of sex. This was the first time she had ever had intercourse. She did not enjoy it. She tried to scream, but she could not. After that, they had sex every night.
