My Cleaning Business is a cleaning software solution dedicated to people that own a small cleaning business, so that they can keep track of their clients, as well as export data to the hard drive for safekeeping. Easy-to-use layout The app's interface is quite simple, as it only consists of a menu bar, a few buttons and several boxes in which to input information. Some well-drawn Help contents are included, and thus it becomes clear that both beginners and highly experienced people can learn how to handle this product, without facing any kind of difficulties. File formats you can use at import and export First and foremost, you should know it is possible to open DBD, CVS and CSV files, as well as export all your data to the hard drive, using multiple extensions, including HTMS, HTM, WRI, CSV, XLS, MDB and DBD. You can also print information with just a click of the button, and open multiple instances of the program. Details you can add and operations at your disposal This utility enables you to add a lot of information, including date cleaning took place, type of property (e.g. private residence, apartment), address, city, zip code, telephone number, description of cleaning, amount of money paid and due, type of customer (new or repeat) and notes (if necessary). A calculator is incorporated, as well as a simple search feature. It is possible to sort clients alphabetically or according to date, and you can easily cut, copy, paste and replace selected records. No other noteworthy options are enclosed. Bottom line In conclusion, My Cleaning Business is a pretty simple, yet efficient piece of software, dedicated to cleaning professionals that want to keep better track of their clients. The interface is intuitive, yet it could benefit from a little more work. The response time is good, the computer's performance is not going to be hampered and our tests did not reveal any kind of hangs or crashes. Nonetheless, you should know it does not work very well with newer versions of Windows, such as.1. Best Business Phone Systems Picking the best business phone system for your cleaning business can be overwhelming. Which phone system is best for me? What's the best business phone system for appointments? What's the best Bizness Apps for Android for a cleaning company? The first step is deciding what exactly you want from your new phone system and what you can live with and work with if your phone system doesn
