Awesome Tube Activation Code is an easy to use application, designed to quickly and effectively enable you to view your favorite YouTube videos from your mobile device. The application has an intuitive UI that makes navigation fast and easy, and it is designed to make content discovery fast and easy. The application features a Podcasts section where you can subscribe to your favorite podcasts and videos, play your favorite music in a separate window, enable autoplay, and more! [PANCAKES] and [SMARTBOARD] are two ad-supported but free apps (2.99 and 1.99, respectively) that allow you to browse other videos, read news and blogs, and more. They also have a separate app stores section where you can download content from third parties (like Youtube, Twitch, and many more) and advertisers' websites. Pros: It works on any platform that uses the Windows 10 operating system It lets you download the videos you are watching at any quality It can run on your computer, your phone and your Xbox It features a Podcasts section where you can subscribe to your favorite podcasts and videos It lets you tinker with some theme-related options, such as choosing between Dark and Light theme Its interface is quite friendly and easily navigable It has a notifications section where you can get notified whenever a new video gets uploaded It has a download section where you can download videos in MP4 or MP3 format Cons: Only works with live channels, not with the new uploaded ones It doesn't let you download videos with a custom quality It doesn't feature a settings tab to tinker with some advanced features It doesn't have an option to play videos only as audio Channels are not viewable without upgrading to the premium version So, in conclusion, Awesome Tube Product Key is a well designed application and in my opinion, it could be a good alternative to YouTube.
