I have so many plans and am sick and tired of being stuck in this same place. This is not fun. I am facing serious computer problems and don't know how to fix them. I am sorry to hear that and sorry to hear that you are struggling with your computer. Now is not the time to spend all your time and energy on the computer, you have a big life ahead of you and it is probably time to take a bit of a break. The computer is still good and it will be fine, it just needs a clean and sometimes that can be a real pain. Click on the image below to get the Virus Expert Tool How to use: Download the free version, save to your disk, and run it. If asked to save the file as an application do not do that, the software is capable of running from the disk. If you want to try to run the software but it does not work, double-click on the file and it will ask you whether or not you want to run it, click Run. Once the tool is done scanning your computer it will give you a report with any problems and show you how to deal with them. If you want you can use the free version to scan your computer on a regular basis but if you want to use it to keep your computer clean and virus free, it is not a bad idea to use the paid version. Most malware is delivered as an attachment to an email or a download from a web page. If you get an email that has an attachment, it is possible that it might be malware, it is best not to open the email and to simply delete the email and to never reply to it. If you download files from a web page it is best to run a scan of the file immediately and to delete the file immediately once it is done. If you do not delete files immediately it is possible that when you later try to open
