* Photoshop Help, from the Help menu, provides quick access to a list of help topics and user's guides. Import and Export * Before importing an image into Photoshop, use File > Open or press Ctrl+O (Windows) or (Mac OS), and select the file from the Open dialog box (Windows) or the File Selector window (Mac OS). Importing an image into Photoshop adds it to the document you're working on and places it in a separate layer. Importing a Smart Object lets you update the original image, apply the Smart Object's attributes, and add further edits. See the section "Use Smart Objects" for more details. If you move, copy, or move an image to a different directory, it might not display in your browser. Rather than changing the file name in the Library window, create a new file and import the image into it. * Before exporting an image, use File > Export or press Ctrl+E (Windows) or (Mac OS). Use the File Selector window to choose an output format. * The Export window doesn't give you the choice of the files format. * To merge an image in Photoshop, drag it onto the layer. If you drag a selection onto a layer, the selection is also merged onto the layer. Export as You use the Export As box to create documents in specific file formats. File name? Check the File Name box. Save as type? Click the down arrow at the right end of the box and choose JPEG, PSD, PNG, or BMP. The Save as Type pop-up menu (Windows) or Save as Type (Mac OS) displays the available formats for you to choose from. To export an image in a different format, right-click the file and select Export as... Use Photoshop's Save for Web & Devices dialog box (Windows) or Open File dialog box (Mac OS) to save the image to a variety of file formats, including JPEG, PNG, BMP, EPS, GIF, and TIFF. To that end, we're headed for the Paragon Theatre to see 18-year-old Iranian-American film-maker Amir Tavassoli's debut feature, The Borrowers. The film is based on a children's book of the same name, and follows a young family who accidentally take a pair of gnomes (yes, gnomes) to live with them. The family is made up of a mother, father and daughter, who are trying to keep their secret a secret. Will they keep it intact, and the gnomes alive? The Paragon's programme is packed full of diverse and independent films, and starts at 8.10pm with a Stuck in London short film featuring William Boyd. Don't miss out! Milehouse Co-founder Sam Howard said: "We've taken a very different approach to the industry around the country to create a 'home of independent film'. We know how much pride our audiences have in being able to watch really independent films that are made with passion and love, and we are beyond thrilled to be able to share this passion with audiences who are interested in a different kind of cinema experience." The Borrowers is written by Simon Stephens, who is best known for his play The Curious Incident Of The Dog In The Night-Time, and who also directed the short film Delusion: A Tale Of Love. Director of photography is Tobias Purmer, who has previously worked with Stephens on The Curious Incident, where he shot all of the visual effects. According to Independent.ie, the film is: "A comedy about a brave and spirited young family brought together by a touching act of selfless kindness. When a gnome falls from the sky into the nest, a traditional mother, a modern father and a young daughter (Amanda Seyfried) make the best of their chance encounter." Molluscicidal activity of Acacia nilotica. Botanically, this study was initiated to evaluate the molluscicidal activity of ethanol extract of stem bark of Acacia nilotica. Volatile oils were extracted by hydro-distillation technique and subjected to study. The ethanol extract was screened for molluscicidal activity against freshwater snail Biomphalaria alexandrina. The visceral phase was observed in the dead snails. Histological study has also been done to evaluate molluscicidal action. Data obtained
