Try downloading the setup from this link and install it properly. Try to update your plugin also. It might be working for you in your Windows. Try to reinstall your FI studio and try to run again. If your plugin is not updated then also contact with VST sizze. Vst. Hope it will solve you problem. The present invention relates to an image forming apparatus such as a printer, a copying machine, a facsimile machine or the like, and more specifically, to an image forming apparatus having a cutter disposed along the sheet conveying direction of a recording sheet and capable of cutting the recording sheet according to the image information to discharge the sheets cut by the cutter to an output tray. As an output tray for discharging sheets, an intermediate tray is generally used which is composed of a flat plate member, is capable of receiving a sheet placed on the intermediate tray from the upper part thereof and takes out the sheets one after another from the lower part thereof. In the intermediate tray, however, there is a limit of the number of sheets that can be contained, therefore, when the number of sheets exceeds the number that can be contained in the intermediate tray,
