EA SPORTS FIFA is a team sport game that brings together the best footballers and best clubs from around the world and allows you to play any way you want. With an endless variety of play styles, modes and teams, FIFA allows gamers to pick up the ball, shoot and dribble their way into the hearts of millions. FIFA 21's Gameplay Improvements FIFA 21 is the closest you can get to the real thing with the Fundamental Gameplay Improvements. Fans will be able to compete in all modes and play in all conditions with improved dribbling and ball control. Goalkeepers Sniper assists can now be earned with a stronger anticipation of where your players will be attacking. GK tactical awareness and timing are improved allowing fans to react quickly and make some of the

most skillful saves in FIFA. Improved positioning between the goalposts will help GKs read the play more easily allowing them to make the most out of their saves. Players will now change direction quicker and closer to the goalpost increasing the chances of a better save. Precision aiming will help to open up the game for GKs playing style. New Players FIFA 21 introduces new stadiums and environments including the brand new English Premier League stadium West Bromwich Albion. This includes changes to the pitch properties such as the new pitch texture and reduced overall pitch size. The new AI teammates and defenders have been updated and adjusted to make them more intelligent. Players will now change formation to fit the team's style and prefer to be in a position to make themselves available for a pass, to provide a better passing option in a certain area.

***Premier League clubs with an interest in keeping the player in England will be prioritised as well. Pick-Ups and Throw-Ins Pick-Ups and Throw-Ins will now have more contextual intelligence. Will be more aware of positioning and will play much more aggressively in their natural position. Passing Passing, dribbling and shooting will be even more accurate, more fluent and more consistent. Players will adjust their game pace in accordance with the speed of the pitch. Dribbling will become even more precise and players will be more aware of where their run is going and how to make an angle into the penalty area. A new set of skills animations will help players demonstrate different styles, characteristics or any areas of**
