Technical Field The present disclosure relates to a method of installing an antenna and, more specifically, to a method of installing an electronic device inside a portable electronic device to enable the portable electronic device to communicate with external equipment. 2. Description of Related Art Portable electronic devices such as mobile phones and notebooks are usually equipped with external antennas to allow them to communicate with external equipment, such as a wireless router for example. The external antennas are separated from the corresponding portable electronic device and then connected to the corresponding portable electronic device, a long wire is needed to connect the external antennas to the corresponding portable electronic device. However, some offices are usually kept inside a building and are far from the external antennas, therefore an extra long wire is needed to connect the external antennas to the corresponding portable electronic device, which is inconvenient. Therefore, there is room for improvement in the art.About the book: The English novelist J.D. Salinger brought us "Catcher in the Rye," and now he's written a 648931e174
