Please make sure you are not trying to run a binary from the Microsoft Windows SDK or the Microsoft Windows Developer SDK. My system is windows 10 x64 I don't know what that means but it could mean that the installer was not able to figure out how to install itself correctly, but I do not have that error. A: You need to install it through Windows Store. In your case you need to have the latest Windows Updates with KB4502058 rolled out: It was time to connect with others during this pandemic, so we planned a little reunion at the lake. We had some good laughs in the few minutes of chatting in this video but once we started getting our favorites together, we couldn't stop laughing. Ryan is also so funny, I wish you could see the smile on his face in this clip. He kept touching the camera on the controller, like he wanted to send me a selfie or something. This was so fun. We laughed at the moment I tripped on my flip flops, and he laughed at the
