What's New in the Adobe Photoshop 2022 (Version 23.2)?

Theater and art Hey guys! Finally had a chance to read through and see all the pages of art and comments and what not! Thought I'd say something about how the artwork is going. As the entire comic has been progressed, I have been losing motivation to continue working on it. So, I've been re-watching anime and composing some music. In regards to the art, I've thought of a lot of ideas and concepts. Some of them I've sketched out and gotten really, really far along with, while others I've thrown away or let some days go by. So far I've narrowed my focus to 2 sides - the mafia and the 7 Deadly Sins. I've pretty much sketched out their characters in there entirety (provided for you in the first page), and am working on bringing them to life in a visual way. The mafia side is going a lot smoother than the 7 Deadly Sins side. So far I've have a few people in mind and some very rough idea's of how they look. The two sides will be a bit different in regards to the development. The mafia side will go from rough drawing to finished inking and coloring the art, while the 7 Deadly Sins side will go from rough sketched concept art to 2d art and then clean-up and coloring. I'm not sure if I will work on both at once or go one at a time. The two sides will feature different aspects of the 2d aspect of the character, depending on what part of it is being worked on. For example, the 7 Deadly Sins characters are normally pretty dark so there will be more of a contrast between their suits and the environments they are put into. Whereas the mafia characters will be fairly plain so the suits will be prominent in contrast to the environment. For example, I like to see the mask and hood for a mafia character as elements that poke above the eye. Whereas for the 7 Deadly Sins characters, the masks are more intricate and the hoods are harder to see, giving the viewer an interesting view of the character. I'm excited to get all the pages from the first group of characters drawn out and then submit them for the art to be done. Some of the people on this forum have really great skills and have done an excellent job at them, so I hope I can do something similar. If anyone would like to take a look at the sketches for an idea, feel free to either post
