"ANY PURCHASE MADE ON AND AFTER 2 NOVEMBER 2018, WILL BE MADE VIA THE FIREKEEPER WEBSITE AND ISAC.COM" The Firekeeper is a unique clothing brand which is no longer able to exist in its current form. As clothing is a living, breathing product and our prices are on the rise, we have decided that our only option is to change our business model, which will require us to be available in an online only fashion. We are therefore opening the business up to our customers who will be allowed to come to our offices (Dylan + John), or order goods online and receive them delivered. There will be no changes to our current pricing structure. Orders will simply require a payment upon placing an order. We have agreed a transition period of approx. 1 month from the cut-off date. Any orders placed with us after this date will not receive the Firekeeper shirt until AFTER the transition period. Should you choose to place an order before the cut-off date, you will still be charged the total amount of your order on the date you purchase it, regardless of the number of shirts in your order. Should you choose to wait until after the cut-off date, you will be charged the total of the order ONLY after it reaches the pre-transition level, which is as follows:

Total order in \$/£/€/AUD

Fifa 22 Features Key:

- Play as the world's greatest teams and legends. Fight for the Ballon d'Or, starring Zlatan Ibrahimović, Carlos Tévez, Gareth Bale and many more. Relive great matches, challenges and complete trophies. Go pro as a player or manage a team through a career, receive challenges from your friends or earn coins from FUT Extras.
- FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
- More Ways to Play: Play with friends, or create new challenges and complete tasks in FIFA Ultimate Team.
- Player Career: In FIFA 22 we have redesigned the Player Career from FIFA 21.
- FIFA Strategy: Player Career will inspire you to the fullest.
- More VAR: Introducing VAR moves the goal of always having the best officiating in FIFA closer to reality. The new VAR system will

help referees control the game on the pitch, and consistently reward decisive moments and realistic challenges.

- FIFA Live Season tournaments: Prove that you're the best by competing in tournaments live with your friends. Season in FIFA Live and fight for the title of World Champion - and earn the ultimate trophy.
- Immersive Atmospheres: Take on-pitch challenges live from environments that are the closest to the real world. FIFA 22 includes stadiums from around the world, featuring all-time icons and superlative views including Ulsan Hanbokdo Stadium, Jamsil Olympic Stadium, CONCACAF Stadium and more. The environments are highly detailed, featuring gegenstücke, field goal posts and goal nets, pro boxes, sponsor logos and more.

Football video games have come a long way since the first game was released in 1993. From the release of FIFA (Electronic Arts, 1993), football (soccer) video games have come a long way. From the days of Top Trac to Total Football, players have had the opportunity to learn and master the beautiful game of football from the comfort of the couch. One of the first steps towards improvement, was the introduction of outdoor stadiums with EA Sports' The Journey (in 1995), and later FIFA 96 (released in 1996). This introduced more authentic outdoor stadiums such as Anfield, Old Trafford and the Olympic Stadium. With the power to make the player the star in the box, the next step for football video games was to focus on the aesthetics of the game. FIFA 97 (1997) featured the groundbreaking Real Player Motion system, which allowed players to control their on-field superstars with unprecedented realism. In FIFA 98 (1998), the real control of the players was introduced with an improved passing game, making the game more intuitive for the player. Add to that in FIFA 99 (1999), the advanced passing system was further refined and the addition of the 3D engine, allowing the player to watch as the ball moves around the pitch and made the game more immersive. It was with FIFA 2000 (2001) that a more complete control of the whole player was introduced, and to this day FIFA continues to focus on improvement, making the game more rewarding and fun.
