if you are a fan of indian cinema, chandni chowk to china is one of the must-see movies of the year. and if you are more of a fan of the indian intellectual stereotype, then this might be the movie for you. get some popcorn and enjoy. the star of lage raho munna bhai was an amiable, broad-shouldered comic actor, and while it does have a few of his features the chandni chowk to china is a different animal entirely. as well as the broad comedy style there are a lot of signposts to the lage raho movie, and there are also a few big differences. firstly, the bollywood audience is used to the wide variety of roles the average hero of a bollywood action movie can play, from the buffoons, action heroes, hams and bit-players. the hero of chandni chowk to china is a grown-up schoolmaster who begins the film as a vegetable cutter and ends it as the reincarnation of an ancient warrior. in between the film puts a lot of stock in his being a hero who is both somewhat of a doofus and not particularly good at fighting, and the story does involve most of the major characters getting out of a variety of sticky situations by the skin of their teeth. as a result, he is actually a very good role model, even if the character is a bit of a bore. he can be a bit of a doofus but is not entirely useless. the only country that i was welcomed in china is singapore. they treat me with a mix of suspicion and perhaps a bit of genuine curiosity about the indian culture. the closest i ever get to getting my hands dirty as an indian is when my friend liu bought me a potato, as potatoes are a big part of the indian diet. in china i was told once to speak and act like an indian so that i could blend in. i was told i wasnt a good blend, but i loved the food.
